Felix Atandi

Mathematical Science with IT student

Maseno, Kenya | felix-ke-ideas.onrender.com

Profile

Third-year Mathematical Science with IT student at Maseno University with an interest in programming, statistics and data analysis. I have designed, built and deployed a database-backed web application with Python and Flask, and I am looking for an attachment or internship where I can apply my mathematical and technical skills to practical problems.

Education

Maseno University
Degree programme: Mathematical Science with IT (third year)
Areas of study: mathematical reasoning, statistics, probability, computational mathematics.

Technical skills

- **Programming and web:** Python, Flask, HTML, CSS, PostgreSQL
- **Data and statistics:** Microsoft Excel, R, statistical analysis, data organisation and visualisation

Project

Felix KE Ideas: personal portfolio and web application (felix-ke-ideas.onrender.com)

- Built and deployed a multi-page website with Python, Flask, HTML, CSS and a PostgreSQL database.
- Implemented a contact form that stores messages in the database and a password-protected administrator dashboard with search and delete.
- Applied security practices: hashed passwords, CSRF protection, parameterised SQL queries, input validation and rate limiting.

Career goals

To combine mathematical knowledge and information technology to solve practical problems, gain industry experience through university attachment, and grow towards a career in programming, statistics or data analysis.
